

ORDERING INFORMATION

SPIN AIR - air sampler for 90mm Petri dishes with carrying case and switching adapter.

SPIN AIR SLAVE - air sampler for 90mm Petri dishes with carrying case and connection cable (needs compulsory a Spin Air main unit)

SPIN AIR BASIC- air sampler for 90mm Petri dishes and switching adapter.

BASIC AIR - air sampler for 90mm Petri dishes and switching adapter.

Cat. No.

ACCESSORIES

Set for 90mm Aluminium Petri dishes (holder and cover)

5504

Set for 60mm Aluminium Rodac plates (holder and cover)

5505

Set for 55/60mm Aluminium Petri dishes (holder and cover)

5678

Set for 90mm Plastic Petri dishes (holder and cover)

5525

Set for 60mm Plastic Rodac plates (holder and cover)

5526

Set for 55/60mm Plastic Petri dishes (holder and cover)

5681

Set for 90mm Inox Petri dishes (holder and cover)

5527

Set for 60mm Inox Rodac plates (holder and cover)

5528

Set for 55/60mm Inox Petri dishes (holder and cover)

5682

Cable for PC/Printer communication

5510

Tripod

5511

Bar-code reader

Information

SPIN AIR

www.iul-inst.com

Rotating plate

Special design of the holes combined with slow rotation of the plate allow to use 100% of the surface compared with the 5% of the still devices.

The left plate (rotated) has collected the same amount of air as the right plate (still)

MORE ECONOMICAL MODELS

Spin Air Basic

Has the same working performances as the Spin Air but much more inexpensive.

Rotating Plate: Special design of the holes combined with slow rotation of the plate allows using 100% of the surface compared with 5% of the still air sampler devices.

Basic Air

Is the classic air sampler reduced at its fundamental features. To offer it at the best price the rotation of the plate has been eliminated.

Reduced price: All the components has been made for long durability but lower price. As example the head its plastic made suitable to be esterilized with alcohol

Saving time

In order to cut the sampling time by two, just add one Slave connected to the main unit. The microprocessor and the power supply of the last one, will control the Slave. As final result two Petri dishes have been inoculated.

Connectivity

In the back of the instrument there is a line of connections:

- Switching adapter for AC mains to recharge the internal batteries
- Connection Spin Air-Slave
- Bar-code reader
- Serial connection to PC/Printer

They have been designed for users that don't need connectivity and where the unit is used in short displacements in wich carrying case is unrequired.

Comparison

Model	Spin Air	Spin Air Basic	Basic Air
Air Volume (0 - 9999 L)	✓	✓	✓
Air Flow (100 l/m - 60 l/m)	✓	✓	✓
Transformer (100-240VAC to 12VDC)	✓	✓	✓
